

REQUEST FOR PROPOSAL

Technical Assistance - Web Application Developer for Environmental Monitoring Platforms

Date: October 10, 2025

The African Wildlife Foundation (AWF) invites qualified web application developers to submit proposals for a framework contract to provide technical assistance in developing environmental monitoring and conservation platforms.

CONTRACT DETAILS

- Type: Framework Contract with task-based assignments
- Duration: 12 months (with possibility of extension)
- Arrangement: Hybrid
- Payment: Based on daily rate × agreed number of days per task

KEY REQUIREMENTS

- Minimum 5 years of full-stack web development experience
- Proficiency in front-end (React/Vue.js/Angular) and back-end (Node.js/Python) technologies
- Experience with database management, mobile development, and cloud services
- Strong portfolio demonstrating relevant project experience

SUBMISSION REQUIREMENTS

Interested candidates must submit:

1. Technical Proposal (methodology, approach, work plan, portfolio)
2. Financial Proposal (daily rate in USD)
3. Supporting Documents (CV, certificates, references)

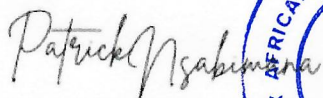

APPLICATION DEADLINE: October 30, 2025

SUBMISSION

Please submit your complete application to: rwprocurement@awf.org

For inquiries, contact: jrukwaya@awf.org

Please find the complete Terms of Reference attached for detailed information on the scope of work, deliverables, qualifications, and application process.
